SPECTACLE

“ANTARCTICA”

“Antarctica” is a Spectacle created to achieve not only a visual impact but to achieve great interaction with the public.

It includes FIVE giant inflatables Antarctica elements: a Penguin, a White Bear, a Walrus, a Killer Whale and a Reindeer. With them is a group of FOUR extras characterized as Eskimos, bearers of different types of props with which they will interact with the public, making them join the Parade.

One of the remarkable aspects of this new show is that it includes a sled handled by an Eskimo and pulled by six wolves. The Sled hides an X2 segway inside to give it mobility, being able to make turns and giving it great realism.

There is no doubt that this is a parade that will impress both for its size and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. There will be special music playing along this unbelievable setting, which will make people immerse themselves in a polar world.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.

“Antarctica” is a show that will impress both for its dimensions and for the realism of the figuration that accompanies them.

If you want to see a video of this spectacle you can do it in the following link: <https://vimeo.com/399804968>
