## “CATRINAS” SHOW

**And perhaps death is nothing more than a Party that we should attend.**

**It is in this spirit of celebration that the "Catrinas" show is born, reflecting the joy, colour and music that accompanies the famous Mexican festivity of the Day of the Dead.**

**It is made up of SIX gigantic Catrinas between four and five metres high, all of them with exclusive costumes designed to reflect the diversity of the Mexican people. Flowers, colours, different types of decorations on the skulls... make each of the Catrinas a unique element that hides a system of neon lights inside that allows the skeleton to be seen through the costumes.**

**The Catrinas are equipped with a DMX sound and lighting system that synchronises music and lights, making them "dance" to the rhythm of each song, turning on, off and flashing in unison in the six Catrinas.**

**To complete the show, we have created the "Carro del Limbo", adapting a motorised cart on which we have installed a base capable of carrying a performer and a powerful turbine that will launch black, purple and white confetti, covering the audience in a rain of colours. The Carro del Limbo is decorated with a succession of petals covered in the same fabrics as the Catrinas' costumes, with small skeletons on them. To camouflage the motorised support, we have made a fabric capable of covering it without impairing its ability to move forward and see.**

**The Carro del Limbo is equipped with a powerful sound system with a capacity of 2,100 watts, which will play a selection of Mexican music that will take the audience on a journey through the most popular Mexico.**

**The "Catrinas" show has been designed and created by Brotóns Cabalgatas y Disfraces, S.L., and is therefore unique and exclusive and can only be marketed by our company.**
