SPECTACLE

“AMAZONAS”

“Amazonas” was created searching of visual impact both by the size and design of the elements that form it and by the color of them.

It includes FIVE giant inflatables Amazon elements: a Chameleon, a Frog, a Glaucus, a King Lizard and a Macaw. With them there are a group of FIVE ethnically characterized extras.

Our parade will show the greatest interaction due to our sensational “Zero-turn” device with the Glaucus on the top. The vehicle has an incredible maneuverability and it can put into the public the Glaucus interacting with them.

There is no doubt that this is a parade that will impress both for its size and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. There will be special music playing along this unbelievable setting, which will make people immerse themselves in a colour world.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.

“Amazonas” is an exotic Espectacle that will impress and amuse the public alike.
