“JURASSICLAND”

This parade consists of five huge dinosaurs surrounded by a group of troglodytes who will try to hunt them. It is very important that the audience joins them to give them some help! This group consists of giant dinosaurs: a Triceratops, a Brachiosaurus, a Werhosaurus, a mammoth and the forever fearsome Tyrannosaurus rex. There is no doubt that this is a parade that will impress both for its size and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. All at a time, a spectacular sound system will invite everyone to join this prehistoric reality.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.
