## **"LAND OF PHARAONS" SHOW**

**History is full of mysteries and the Egyptian people are, without a doubt, one of the most mysterious.**

"LAND OF PHARAONS" is a show that pays tribute to a civilization surrounded by mystery, progress and magic. The show is made up of TWO aerial elements and FIVE gigantic ground elements.

The five ground elements are on motorised carriages, which facilitates their mobility, being able to turn towards the audience to interact with them. These elements are: an Egyptian Beetle, a Sphinx, a Camel, the God Ammit and a spectacular Mummy.

The aerial elements represent a Sun with the Eye of Ra and a sphere with two of the most characteristic symbols of the Egyptian civilisation: a Snake and the Key of Life. With each Chinese Lantern there are two entertainers characterized as pharaon's soliders, one in charge of air element control and the other to help with it

To complete the show, there will be a group of FIVE extras characterised as Egyptians, with different props with which they will interact continuously with the audience.

There is no doubt that this is a parade that will impress both for its size (the Mummy is 13,52 meters long) and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere.

It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.

"Land of Pharaohs" is, in short, a show that highlights the beauty and grandeur of one of the most studied and admired civilisations in history.

If you want to see a video of this spectacle you can do it in the following link
