## **“FUTURE OF METAL”**

**This parade consists of five visionary and mythological creatures dressed in metal armours. They are provided with different special effects that will amaze and excite the audience, such as smoke machines and lasers. A group of metal warriors, which will call for help from the youngest in the audience to face the beasts, will join all these creatures. There is no doubt that this is a parade that will impress both for its size and for its innovative sound system, equipped with a transmitter and a receiver producing a realistic atmosphere. This setting will include vibrant music that will make people immerse themselves in a new world full of fantasy, dragons and creatures from another reality.**

**It should also be highlighted that all our inflatable creatures can be easily folded, just in case that some areas are narrow and not adequate to their size.**
