"GALACTIC"

Once again, we focus on the originality and innovation in our shows with our big PREMIERE in 2013. GALACTIC is formed by a group of UFOs driven by invisible Segway elements, managing to create a floating effect on them. Segway X2 models are ready to face any surface and are highly manoeuvrable. We have adapted them to the parade, so they can be driven without using our hands and people can interact more easily with the audience. These adaptations also allow us to provide each UFO with a smoke machine and an LED effects. Members of this spectacular "Star Force" are well dressed with their combat uniforms and equipped with laser-effects weapons.

Behind them, there will be a huge mother ship mounted on a "Zero-turn" vehicle which will enable the audience to interact more within the show. It's a powerful machine that creates soap bubbles and releases thousands of them of different sizes for the youngest in the audience. As well, a laser machine will enhance the spectacular smoke effect created by UFOs. On the mother ship, we can see the head of the unique group of invaders, an evil alien, lit with white lights from inside the ship.

Being equipped with a powerful sound system, each UFO will also include the music required to get the audience highly involved in the show.
