“NATURALIA”

A big animated caterpillar (20x3 metres) coming from the most magical tales will be responsible for the creation of a fairytale atmosphere. After its steps (our caterpillar has no less than 12 mobile legs!), a light will be always shining thanks to "bright warts" all over its body. As well, we will see a very long tail containing different-coloured LED lamps and lights that will change gradually. The movable eyelids of our caterpillar will provide the parade with a great realism, encouraging the interaction with the audience. The fact that this parade is a tribute to Nature explains why all the creatures are those that we can easily find in the forest, but they are defined by their fantasy. With this, they will make it easy for children and adults to stimulate their imagination. Armed with jumping stilts and roller skates, not only will these creatures show their colourful outfit, but everyone will enjoy amazing acrobatic pirouettes.

This parade has a distinctive design, aiming to surprise both with its size and high mobility (a tractor is integrated inside the caterpillar's head and it's followed by a wagon set). It should be mentioned that it also promotes environment and enhances the responsibility towards Nature in a very fun and cheerful way.

Equipped with a powerful stereo system with over 1,500 W, our huge caterpillar possesses a LED lighting system integrated at the tip of its antennae. It lights all the participants in the show and will put the final touches to our wonderful parade.

Primera Casa en presentación de Cabalgatas Históricas de Reyes Magos, Carnavales, para reaperturas patronales y de Ferias con Gigantes y Cabezudos - Todas las temporadas variedad de figuras, modelos exclusivos de gran efecto cómico
