THE "EASTERN DRAGON" SPECTACLE

This spectacle has as main attraction a huge Dragon (almost 20 m long and 3 m tall) of great mobility both horizontally and vertically (thanks to the tractor inside its head and the group of wagons concealed inside of it). The realistic point is achieved with the smoke that comes out of its nostrils and the roaring sounds he makes thanks to a powerful sound system that will also play music to fill the streets with rhythm and dancing.

Along with the Dragon, a group of Easterners will walk the Parade streets filling them with colour and entertaining everyone with their choreographies and the spectacular pyrotechnical effects they keep in the magical pot of the rituals.
