“EVOLUTION”

SHOW

Our Company stands out for its continuous search to create new ways for Shows that manage to surprise and achieve interaction with the public. With “EVOLUTION”, we create a new line in Shows with large elements that have a very striking appearance given their colourful elaboration that highlights their attractiveness at sunset, thanks to the effect of the lights on their bodies and the mobility of their limbs.

The planet has suffered dramatic changes because of contamination, giving rise to a barren, hostile climate in which the inhabitants of Earth are not able to live in, having to change their shapes and bodies in order to adapt and survive.

“Evolution” is made up of FOUR elements born from the fusion of animal species and mechanical elements along with lighting effects. These elements are adapted to have head, tail and front limb mobility, interacting with the attending audience.

A group of **FOUR extras** accompanies them, characterised by biomechanical elements, who search for new evolution candidates among the audience.

Each element is fitted with a **powerful sound unit** which, thanks to a sender and receiver system, means that the same soundtrack can be played through each one in unison, managing to create a surround sound that will encircle the audience. In addition, each one of them, thanks to an incorporated mixing board, will have its own evolved being sound.

“EVOLUTION” is a new Show format, striking both for the size of the elements in it and the different shapes, adaptations and lighting effects of each one, without losing, despite their complexity, interaction with the audience.

EIGHTEEN people are needed to fully carry out this Show: three to handle each one of the evolved beings, four extras and two controllers.
